FOUNDATION

The Bridge Builders Society ***“Focused on Today; Building for the Future”***

The Bridge Builders Society honors those individuals, corporations, and businesses that participate in major gifts campaigns with significant gifts relative to Capital Campaigns, Major Endowments/Trusts, and Instructional Chairs. Bridge Builders are true visionaries, building not for themselves; for a better future for the many that will come behind them. Sampson Community College and the SCC Foundation are deeply grateful for their generosity and service.

The Legacy Society ***“Perpetuate the gift of education”***

The Foundation Legacy Society is a special group of forward-thinking people who are partners with us in planning for the future of Sampson Community College. We encourage our supporters to become members of the Foundation Legacy Society by making a lasting, planned gift to the College’s growth and strong heritage. Planned gifts play a growing role in ensuring that future generations of students will find opportunities in post-secondary education at Sampson Community College.

Endowments

A special commitment is made by individuals, organizations and businesses in establishing an endowed scholarship. The basic concept of an endowed scholarship applies to funds which have been invested so that the principal remains untouched and perpetual, and only the income from the investment or designated gifts can be used. The distinction of a Heritage Endowment indicates that donors have contributed or pledged \$10,000 or more. A minimum endowed scholarship at SCC is an initial investment or pledge of \$5,000.

HERITAGE ENDOWED SCHOLARSHIPS

The ABWA-Sampson Charter Chapter Scholarship Endowment

The Order of The Sampson Community College Circle

Sampson Community College was founded in 1967 to provide quality education and training for area residents and to contribute to the social, economic, and cultural development of Sampson County. The State of North Carolina appropriates enough money to guarantee students a minimal education, but the needs of Sampson Community College and its students are many. To help meet these educational needs and to continue the development of a fine institution, Sampson Community College depends on the support of its many friends and benefactors. In keeping with its tradition of excellence, the SCC Foundation established "The Order of the SCC Circle" to recognize those persons and benefactors who have given so generously to support our students and programs. Gifts to any of the Foundation designated clubs, endowments, and societies qualify donors for inclusion in "The Order of the Sampson Community College Circle."

“Gratitude is a Memory of the Heart”

Sampson Community College is proud to announce the addition of a new program in Ammonia Refrigeration that began in August of 2010. We are one of only six schools in the nation offering this curriculum. Thanks to our generous donors who helped SCC meet the goal.

The Blue Blazers will serve as Sampson Community College Student Ambassadors for the upcoming 2010-2011 year. This distinguished group of students was nominated by a staff or faculty member of SCC based on their outstanding performance and leadership skills. These students have received a scholarship funded by the generous donors of the SCC Foundation.

John Prestage, SCC Foundation President, extends congratulatory remarks to our scholarship recipients during our Scholarship/Donor cookout.

SCC Foundation, Inc.

September 2010

Once again the patrons of the Sampson Community College Foundation have answered the call to support the students and staff of SCC. Your generosity has enabled countless individuals to grow personally and professionally by providing scholarships, program support, mini grants, emergency loans and work-study positions. These educational opportunities are available because you recognize the need and choose to give, and your generosity ultimately changes lives. We thank you for understanding the important role that the Foundation plays in helping the people of our community set lofty goals and work to realize those dreams.

Henry David Thoreau tells us that to affect the quality of the day is the highest of arts, and that is what each of you does by lifting up individuals and giving them the chance to succeed. Please visit us on campus and see all the good that is being done by your unseen hand. Thank you for your kindness and support.

Sincerely,

Lisa Turlington

Lisa Turlington, Executive Director
